

ADD MATERIALS SELECTING to UPLOAD EVERY PHOTO task understanding

We need to let the user choose from which material is the photo of

1

TO DO

2 REPLACE BUTTON instead of "carica" should be "avanti"

NEW OPTIONS

Under "Selezione Cartella" the options should be:

- Ante
- material category e.g.1
- material category e.g.2
- material category e.g.3
- material category ...
- altro (cantiere)

EXAMPLE

FOR EXAMPLE FOR THIS CANTIERE THE MATERIAL CATEGORIES TO SHOW SHOULD BE: Infissi, Termico, Fotovoltaico

RESULT

2

WHEN YOU CLICK "avanti"

if you have selected Ante or altro(cantiere) then you go straight to the uploading page

if you have selected one of the material categories [in this example Infissi or Termico or Fotovoltaico]

then

You should see a new popup to select which material of the selected category you want to upload the photo of so the options should be:

- Material e.g.1
- Material e.g.2
- Material e.g.3
- Material ...

EXAMPLE

FOR EXAMPLE FOR THIS CANTIERE THE MATERIALS TO SHOW IF I HAVE SELECTED TERMICO SHOULD BE: Caldia a condensazione, Condizionatore 12000 BTU

RESULT

RESULT ACCORDING TO THE PREVIOUS EXAMPLE

3

WHEN YOU CLICK "carica" then you go straight to the uploading page

NOTE

we should also create a new column in construction_site_image to store the ID of the materials we uploaded the image of

EXAMPLE

if i have selected "Condizionatore 12000 BTU" in the previous popup,

in "material_name" column of each uploaded photo should go Condizionatore 12000 BTU's material id as foreign key
